## Pencil & Paper – Two Draws Down (Pick 3)

### Entering the last two draws:

Write the last 2 draws of your PICK 3 lottery into the 6 empty circles below. Start with the most recent draw.

○	○	○	▪	○	○	○	▪	0	3	6	9	2	5	8	1	4	7
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---

### Eliminate the Multiples:

Starting from the 7 on the right, cross out every digit in the list above that occurs multiple times until each digit is left only once. Starting from the front, copy each digit in the order shown into the table below:

A	○	B	○	C	○	D	○	E	○	F	○	G	○	H	○	I	○	J	○
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---

If you have everything correctly all circles should be filled and each digit should only be in the table once.  
**Congratulations!**

*Note that each circle is assigned a letter starting with A. The letters will help you find your play selections.*

### Creating the Wheel:

Now it's time to create the play selections. Simply copy the digits according to the assigned letters into the circles below. This workout creates 12 combinations you can choose from.

### Good Luck!
