

PnP-AFS-3 v1

Pencil & Paper – AL's Favorite System (666)

Instructions:

Write the last draw of your PICK 3 lottery into the first Circle row (ABC) on the left (Start).

Start A ○	B ○	C ○
A+ 6 = D ○	B+ 6 = E ○	C+ 6 = F ○
D+ 6 = G ○	E+ 6 = H ○	F+ 6 = I ○
G+ 6 = J ○	H+ 6 = K ○	I+ 6 = L ○
J+ 6 = M ○	K+ 6 = N ○	L+ 6 = O ○
M+ 6 = P ○	N+ 6 = Q ○	O+ 6 = R ○

Note that each circle is assigned a letter starting with A. The letters help you find your play selections.

Now you add 6 to the digit on the top and write the result in the Circle below starting with A+6=D, B+6=E, C+6=F. If the result is 10 or higher use only the last digit of the result. Complete the same calculation on each new row until you reach O+6=R. Now you are done!

Did you calculate right? If you did the row RQR should be the same as row ABC. Congratulations!

This workout creates 4 basic combinations you can play or choose from:
DEF, GHI, JKL and MND.

Optional:

If you need a few more numbers you can also try some of the following combinations:
DGE, EFI, JMN, KLO and
DGI, EHK, FIL, GJM, HKN, ILO or
GEF, DHI, JNO, MKL, DEI, GHF, JKO, MNL.

There are no limits. Can you find more combos?

Good Luck!

Optional: If the most recent draw was a **double** (one digit occurs twice in the draw) or even a **triple** (all digits are the same) use the most recent **single** (all digits are different) to start out with.
